

CAREGIVING YOUTH PROJECT (CYP) RESULTS 2018-19 End of Year Feedback of 364 Respondents - How the CYP Helped Them

Respondents were 64.2% female (n=231) and 60.4% (n=220) were in middle school. There were 7 no longer caregiving. Not all students responded to every question. Some respondents answered via telephone interview. CYP services provided are needs-driven so not all students received the same supports or had the same opportunities to meet caregiving youth from other schools. Qualitative results are also available.

The Caregiving Youth Project in Palm Beach County, FL is the direct service program of the American Association of Caregiving Youth® which is headquartered in Boca Raton, FL; 561-391-7401; www.aacy.org
