Questions at Camp Treasure XX – 11/5/2016

If you help someone with medicine and you give them more than what you need will it harm them?

How to remember that a person has problems but looks like a normal person.

How can I get someone out of bed if they don’t have anything to help them with?

When you lost your loved ones, will it effect your life?

What happens when they need help but you can’t help them? (What can you do?)
